JUDGES' COMMENTS

Hang Lung's efforts to refresh the board with good succession planning has earned the endorsement of the Judging Panel. A new Vice-Chairman has been appointed to work side-by-side with the Chairman while a new CFO has also been identified to succeed the incumbent. To preserve sound corporate experience and insights, the former CEO was appointed to the board as an NED. These steps have ensured the Group benefits from fresh perspectives while keeping continuity. In its strive to provide prompt financial information to shareholders, the Company commits to publish financial results within one month after the end of the financial period, which is commendable. The Company's willingness to communicate with shareholders is also evident in its semi-annual Letters from the Chair and Vice-Chair. The candid discussion of these letters enables shareholders to paint a clear picture of how the Company takes advantage of the rapid socio-economic-political developments and underlines its commitment to Openness -- one of the Company's guiding principles.

評獎委員評價

恒隆在完善董事會的繼任安排以保持活力所作的努力，贏得了評獎委員會的認可。董事會委任了新任副主席，並與主席攜手合作；財務總監的繼任人選亦已確定。為保持良好的企業經驗和識見，前任行政總裁獲委任為董事會非執行董事。該等措施確保公司在保持連貫性的同時能從新的視角中獲益。在努力向股東提供及時財務資料方面，公司承諾在財務期結束後一個月內公佈財務業績，此舉值得稱許。公司願與股東溝通亦體現在其半年期之主席及副主席函件中。該等函件的坦誠討論使股東們能對公司如何把握社會經濟政治的快速發展一目了然，並突出其對保持開放的踐行，而該點正是公司的指導原則之一。

JUDGES' COMMENTS

Link impressed the Judging Panel with its incessant efforts to continue to build and strengthen its board which is already strong, independent and diversified. In addition to rejuvenating the board with directors who can fill skill gaps, technology is widely applied to enhance communication amongst directors and give them full access to key business information for decision-making. The Judging Panel noted the impressive business and geographical expansion of Link as a strong testament of the board leadership, with the recent announcement of the latest asset acquisition in Sydney, Australia. Locally, as its operation touches on the daily life of the grassroot population, Link actively engages with key stakeholders through a wide range of channels including monitoring the social media to gauge public perception and manage issues and mitigate risks arising therefrom.

評獎委員評價

領展本已擁有已堪稱完備、獨立及多元化的董事會，而其仍不斷努力使董事會更為鞏固和強化，此舉令評獎委員會留下深刻印象。除了為提高董事會效率而增加能夠填補技能空缺的董事外，領展還廣泛採用科技手段加強董事之間的溝通，使董事能夠充分獲得關鍵的商業資訊，以便做出決策。評獎委員會注意到，領展出色的業務和地域擴張充分印證了董事會全面的領導力，最近更公佈了在澳洲悉尼的最新資產收購。在本港，由於領展之業務觸及基層民眾的日常生活，領展透過廣泛渠道（包括監測社交媒體）積極與主要持份者溝通，以了解公眾的看法，迅速處理問題並紓緩由此產生的風險。

JUDGES' COMMENTS

A previous winner of the Award, Ping An continues to manifest strong leadership of the board which comprises skilled professionals who guide the Group to become an integrated financial services powerhouse with good leverage on technology that it is today. The absence of a controlling shareholder frees the Group from undue influence by a single interested party, and there is strict observation of laws and regulations about connected transactions and corporate governance. The board devotes close attention to building the right positioning, personnel, process and culture for the Group, and to developing a strong risk management framework based on big data extraction and AI to monitor risks. Its unique management structure with 3 Co-CEOs with clear division of business oversight helps steer the group through the market uncertainties in the past years with clear focus and corporate conciseness to generate strong returns to shareholders. The Judging Panel is pleased to recognize Ping An's corporate governance achievements with another Award this year.

The Company realizes how important it is to protect clients' Intellectual Property (IP), which it dubs as the "Shared Lifeline", hence in order to win and maintain their trust, a series of governance measures, including continual staff training in IP protection and compliance, advanced data security system, encrypted file transfers and internal firewall as well as a Zero Tolerance policy of corruption are implemented. JUDGES' COMMENTS

China CITIC Bank demonstrates high attention to stakeholders' interests as can be seen in its establishment of a Board Committee in October 2016 dedicated to consumer rights protection, and the adoption of cumulative voting system for election of directors and supervisors since June 2021, making it the second Chinese commercial bank in China to do so. To assist micro enterprises of China, the Bank's inclusive finance portfolio increased 44% at the end of 2020. A robust risk management system that covers liquidity and credit risks has helped bring down its ratio of non-performing loans to a low 1.48%, further protecting shareholders' interests. To provide efficient and reliable banking services to customers, adequate resources are directed to strengthening its IT infrastructure and personnel with special emphasis on data security. At the board, there are specific board processes to facilitate independent discussion and expression of views while directors and management are held accountable by respective appraisal arrangements. The Judging Panel is pleased with the Bank's thorough and meticulous corporate governance approach that is worthy of an Award of Excellence in Corporate Governance.

評獎委員評價

中信銀行高度重視持份者利益，這體現在其於2016年10月成立專門保護消費者權益的董事委員會，並於2021年6月起採用累積投票制選舉董事和監事，成為中國第二家採取此投票制度的中國商業銀行。為幫助中國的微型企業，2020年底該行的普惠金融組合增長44%。該行擁有涵蓋流動性和信貸風險的穩健風險管理系統，這令其不良貸款率降至1.48%的低位，進一步保護了股東利益。為了向客戶提供高效和可靠的銀行服務，該行動用充足的資源來加強資訊科技基礎設施和人員配置，尤其重視數據安全。董事會方面，該行設有專門的董事會程序以推動獨立討論和意見表達，而董事及管理層則透過各自的評核安排承擔責任。評獎委員會非常滿意該行全面而細緻的公司管治方針，其榮膺公司管治卓越獎乃實至名歸。

China Everbright Water records strong business performance, including the turning around of an under-utilized and loss-making waste water treatment facility in Jinan, China that it secured in 2006 into a winning example that collected multiple awards and recognition in China and globally. That was the result of a conscientious business approach that is deep-rooted in a sound corporate governance culture where board independence, accountability and a commitment to transparency are emphasized. In addition to having independent-led board committees, a Management Committee and sub-committees are in place to oversee company operations such as procurement, risk assessment and budgeting, with clear reporting lines and checks-and-balances. JUDGES' COMMENTS

Henderson Land's impressive portfolio of high-quality properties that meet the highest international green and well-being standards and receive awards and accreditations is perhaps the best evidence of its commitment to protecting the environment and bringing healthy lifestyle to the community it serves. 86% of its new buildings achieved BEAM Plus silver ratings or above. These achievements are driven by a sound and well-developed Sustainability strategy known as "GIVE". Under "G" which stands for "Green for Planet", strenuous efforts are made to reduce the impact on environment, including implementing "Timberless Construction" which uses aluminium formwork to replace timber in order to conserve trees and reduce construction wastage. To further combat climate-change risks, a holistic carbon and energy audit at corporate and properties levels has been undertaken which allowed science-based target setting to coincide its roadmap to Net Zero by 2050. In Green Finance, the developer has secured over HK\$28 billion equivalent of green finance facility which would enable it to advance its ambitious ESG strategies. 評獎委員評價

恒基兆業地產出色的優質物業組合符合全球最高環保和健康標準，並獲得多個獎項和認證，這或許是其致力於保護環境並為所服務的社區帶來健康生活方式的最佳憑證。該集團86%的新建樓宇均取得綠建環評銀級或以上認證。之所以能取得該等成就乃因為集團推出一項健全的可持續發展策略「GIVE」。在代表「綠色地球」的「G」方面，該集團全力減少對環境的影響，包括實行「無木材建築」，用鋁制模板代替木材，以保護樹木和減少建築損耗。為進一步應對氣候變化風險，恒基在機構和物業層面開展全面的碳和能源審計，以便設定遵循到2050年實現淨零排放之路線圖的科學化目標。在綠色金融方面，該發展商已獲得超過280億港元的等值綠色融資，使其能夠推進目標宏大的ESG策略。評獎委員會欣然向恒基兆業地產授予環境、社會及管治卓越獎。

JUDGES' COMMENTS

Engaged in capital intensive activities, New World Development is a smart user of Green Finance to solve its funding needs and advance its ESG goals at the same time. Through the years, it has achieved many "firsts" in the field of green finance, such as Hong Kong's first green loan, GBA's first green bond and Asia's first sustainability-linked loan. These enable the property developer to deploy environmental-friendly construction methods and incorporate innovative green features in its building portfolio, among which is one of the world's first triple platinum certified green and healthy buildings. In combating climate change, it is the third real estate company in Asia committed to setting science-based targets that would help limit global warming to 1.5°C. Its cultural preservation work in recent years, notably the conservation of the State Theatre in North Point, earned the praises of the Judging Panel for its positive social impact created. The Judging Panel is also impressed by the Group's accelerator programme that funds, nurtures and supports impact-driven start-ups to create lasting positive changes to society and the environment.

評獎委員評價

地產開發是資本密集的行業，新世界發展充份利用綠色金融解決資金需求，同時推進ESG目標。多年來，該集團獲得綠色金融領域的多項「第一」，如香港首筆綠色貸款、大灣區首例綠色債券和亞洲首筆可持續發展掛鉤貸款。因此，該物業發展商能夠採用環保型建築方法，並在其樓宇組合中融入創新的環保特色，包括擁有全球首批獲得三白金認證的綠色健康建築之一。在應對氣候變化方面，該集團是亞洲第三間作出承諾制定科學化目標將全球變暖限制在1.5°C的地產商。近年來，該集團積極推行文化保育工作，尤其對北角皇都戲院的保育會產生積極的社會影響，此舉贏得評獎委員會的讚譽。評獎委員會亦讚賞該集團推出加速器計劃，資助、培養及支持以營造影響為重心的初創企業，為社會和環境創造持久的積極變化。

JUDGES' COMMENTS

The Judging Panel is pleased with the overall ESG performance of Xiaomi with its comprehensive approach to reduce environmental footprint and fulfil social obligations. In 2020, Xiaomi became a signatory of United Nations Global Impact and its ESG endeavours are matched to the UN's Sustainable Development Goals. As a leading consumer electronics manufacturer, Xiaomi inevitably consumes a high amount of packaging materials, which will eventually become wastes. To reduce packaging wastes, Xiaomi cut down on the amount of packaging materials and phasing out the use of plastic film in many instances. The drive to recycling used phones and phone chargers also decreases the amount of electronic wastes overall. Xiaomi's manufacturing base in Beijing operates to ESG-related ISO standards; its emission level and resources consumption related to production are well contained with solar panels widely used. Xiaomi also contributes to innovation. It has now over 19,000 patents to its name and frequently participates in the setting of national and international industry standards. Taking advantage of its high user penetration, Xiaomi develops an earthquake alert system via its handsets covering 100 cities in China, successfully flagging early warnings and bringing people to safety. Such attention to details and conscientiousness is commendable.

JUDGES' COMMENTS

To a telecom operator, energy consumption of the telecommunications infrastructure is a big challenge in ESG. To tackle this issue, Hutchison Telecom undertakes a detailed energy audit. It explores new energy-efficient solutions through improved algorithms and organises its server storage facilities in such a way that airflow will be improved, thereby reducing energy usage for cooling. This is just one of the many ESG measures introduced by its Sustainable Committee set up in 2020. Groupwide science-based targets are set to reduce its overall carbon footprint, calling for office-based green drive and green procurement policies. Together with other social commitments, such as providing free broadband for streaming of live performances during the pandemic, these measures present an all-rounded ESG picture of Hutchison Telecom. The Judging Panel hopes to see further improvements in other areas, such as setting a Net Zero target.

評獎委員評價

對於一家電訊服務營辦商而言，電訊基建的能耗是ESG中的一大挑戰。為解決該問題，和記電訊開展詳細的能源審計。該集團透過改進算法探索新的節能解決方案，並以能夠改善氣流的方式安排伺服器儲存設施，從而減少冷卻所需的能源用量。這僅是其在2020年成立的可持續發展委員會推出的眾多ESG措施中的一項。和記電訊在集團上下設定科學化目標以減少整體碳足跡，實施辦公室綠色行動和綠色採購政策。該等措施連同其他社會投入（例如在疫情期間為現場演出串流提供免費寬頻服務）展現了和記電訊全方位的ESG佈局。評獎委員會希望該集團能在其他領域加以改進，例如設定淨零目標。
